

To Whom it May Concern:

I wanted to write to voice my strong opposition to both SB-16 and HB-5416. These would only have an effect on law abiding gun owners and would not do anything to reduce gun crime as the people who commit gun crimes are not legal gun owners and do not follow the rules that are already on the books. Please do not let these bills move forward as I guarantee these will do nothing to curb crime. These will only burden the legal gun owner and gun store.

Sincerely,

Eric Goodman
